

Letter of reference

We are pleased to provide this reference letter to company **Energoserv Pomorze Sp. z.o.o. from Toruń (Poland)** who completed a project as our contractor in metallurgical plant LKAB Malmberget (Sweden) at installation of Process Gas Ducts and Steel Structure in period April - May 2013.

In the scope of delivery were ducts and steel constructions made of steel S235JRG and P265GH in total quantity over 27 tones. Ducts had a standard size Ø 1016mm x 8mm and oversize: Ø 3840mm x 12mm; 2600mm x 3600mm x 12mm for road and sea transport.

The scope of work included:

- realization of technical workshop design
- prefabrication at workshop
- delivery to Malmberget by trucks and ferries
- erection in mechanical scope in Malmberget
- assembly of insulation
- supply of cranes for needs of erection works

The project was completed timely. Energoserv demonstrated high level of professionalism, skills, co-operation, ability to solve problems on daily work and flexibility in meeting particular customer's requirements.
